### Chapter 1 Reflection

Chapter one was very informative when it came to learning how to use Inspiration, Kidspiration, Goggle Doc, and other documents. I never used Goggle Doc until this class, but this chapter has clear-up a lot of mystery of how to create a table or template in Goggle Doc. I am learning how to become comfortable with the Inspiration software. I do not think I will let Microsoft Word Document go and use Goggle Doc all the time, but I am willing to learn new tricks for the classroom.
